Dante,

I'm definitely not a statistician and was not planning to join the call. Like you, I just wanted to be in the loop when this discussion was going to occur.

Don and Jack,

I won't be attending the statistics call myself – just the statisticians from CBI (Jonathon Shireman and JC). I accepted the meeting invitation just to have it saved on my calendar so I know when it is happening.

Jack – are you attending the call yourself? I hadn't invited any of the other agency project managers or tribes – trying to keep it just a focused statistics discussion between the consultants.
